

Python

Product Features

- Numbered tube marking for ease of identification
- Range of tubing bundle configurations and insulation sizes available (minimum wall of 25mm recommended for glycol)
- Blown nitrile vinyl rubber for improved insulation
- Outer Wrapping – PVC self adhesive wrap used to protect the insulation in transit and during installation. Also performs as a vapour barrier
- Inner Wrapping – Food grade polyethylene stretch wrap acts as an odour barrier. Ensures full tube contact and correct orientation of tubes throughout the python
- Tubing:
 - Glycol – food grade LDPE tube, no leaching
 - Beverage – nylon II inner, MDPE outer

Product Options

- Flowback and Sheathed glycol tube options available.
- Various tube inner dimensions available (6.3 – 9.5mm)
- Various other Beer and Glycol combinations available; the following table shows the most common combinations:

PART NUMBER	DESCRIPTION	OUTSIDE DIAMETER (mm)
BP4D225	PYTHON – 4 Beer + 2 Glycol lines, 25mm insulation	85
BP4D232	PYTHON – 4 Beer + 2 Glycol lines, 32mm insulation	110
BP4D425	PYTHON – 4 Beer + 4 Glycol lines, 25mm insulation	95
BP4D432	PYTHON – 4 Beer + 4 Glycol lines, 32mm insulation	122
BP6D225	PYTHON – 6 Beer + 2 Glycol lines, 25mm insulation	90
BP6D232	PYTHON – 6 Beer + 2 Glycol lines, 32mm insulation	110
BP6D425	PYTHON – 6 Beer + 4 Glycol lines, 25mm insulation	96
BP6D432	PYTHON – 6 Beer + 4 Glycol lines, 32mm insulation	115
BP8D225	PYTHON – 8 Beer + 2 Glycol lines, 25mm insulation	95
BP8D232	PYTHON – 8 Beer + 2 Glycol lines, 32mm insulation	115
BP8D425	PYTHON – 8 Beer + 4 Glycol lines, 25mm insulation	105
BP8D432	PYTHON – 8 Beer + 4 Glycol lines, 32mm insulation	120
BP10D225	PYTHON – 10 Beer + 2 Glycol lines, 25mm insulation	105
BP10D232	PYTHON – 10 Beer + 2 Glycol lines, 32mm insulation	115
BP10D425	PYTHON – 10 Beer + 4 Glycol lines, 25mm insulation	110
BP10D432	PYTHON – 10 Beer + 4 Glycol lines, 32mm insulation	115
