

# Python

Lancer beverage python features numbered tubing for easy identification, and with a complete range of tubing bundles and insulation sizes, Lancer beverage python will cover all of your requirements.

## PRODUCT FEATURES

- Numbered tube marking for ease of identification.
- Range of tubing bundle configurations and insulation sizes available (minimum wall of 25mm recommended for glycol).
- Blown nitrile vinyl rubber for improved insulation.
- Outer Wrapping - PVC self adhesive wrap used to protect the insulation in transit and during installation. Also performs as a vapour barrier.
- Inner Wrapping - Food grade polyethylene stretch wrap acts as an odour barrier. Ensures full tube contact and correct orientation of tubes throughout the python.
- Tubing - Food grade LDPE tube. No leaching.

## PRODUCT OPTIONS

- Beer line sizes from 6.3 - 9.5mm I.D
- 25 or 32mm thick insulation

PART NUMBER	DESCRIPTION
32000075	Python, 4 Beer + 2 Glycol lines, 25mm Insulation
32000078	Python, 4 Beer + 2 Glycol lines, 32mm Insulation
32000083	Python, 4 Beer + 4 Glycol lines, 25mm Insulation
32000087	Python, 4 Beer + 4 Glycol lines, 32mm Insulation
32000112	Python, 6 Beer + 4 Glycol lines, 25mm Insulation
32000116	Python, 6 Beer + 4 Glycol lines, 32mm Insulation
32000143	Python, 8 Beer + 4 Glycol lines, 25mm Insulation
32000148	Python, 8 Beer + 4 Glycol lines, 32mm Insulation
32000158	Python, 8 Beer + 6 Glycol lines, 32mm Insulation
32000034	Python, 10 Beer + 4 Glycol lines, 25mm Insulation
32000038	Python, 10 Beer + 4 Glycol lines, 32mm Insulation
61779475	Bracket Python (Perf)
