

ZENITH

ZENITH FOUNT AT A GLANCE

Slim, sleek and sexy the Zenith is quickly becoming one of the most popular towers in the Lancer range. The broader upright section combined with the narrower horizontal section create a unique look. This fully flooded tower looks great in any environment and is available in 4 to 6 faucet versions, available in both right hand and left hand. Consider using a combination of right and left hand towers to create something different for your bar !!
