

## The Siberian Mini Chiller

Good things come in small packages!  
With Lancer's Space saving Siberian™ 2KW Mini Glycol Chiller you can have all the benefits of a professional glycol chiller while maximising the floor space available in your cool room

## Features

- Rotationally moulded inner & outer polypropylene tank offering long life and corrosion resistance.
- The tank is insulated with environmentally responsible, water blown non-CFC polyurethane insulation.
- A second thermostat probe is attached to the evaporator suction line. This probe will shut down the refrigeration system should the suction line temperature drop below normal operating conditions.
- Air-tight design of the tank & lid, keeps condensation to a minimum to eliminate dilution of the glycol solution.
- Modular screw-in legs allow easy cleaning under the unit once installed.
- Semi-submersible, single phase pumps.
- Operates using environmentally responsible R404a refrigerant as standard.
- Offers low installation, operating and maintenance costs due to single phase (230V 50Hz) power requirement to operate both the refrigeration and pump(s).
- CE Mark

## Multi-Refrigerant

## Configuration

<b>Dimensions</b>	Width: 476 mm   Depth: 436 mm   Height: 854 mm
<b>Weight</b>	Operational: Floor 68kg   Wall 96kg Empty: Floor 28kg   Wall 56kg
<b>Tank Capacity</b>	40 Litres
<b>Thermostat</b>	Electronic
<b>Power Requirements</b>	Single Phase 230V / 50 Hz (amps dependent on pump configuration)
